T. PETERSBURG, Feb. 10.- [Exclusive Dispatch.] The entire city was shocked today when it became known that a descent by the police hat been made on the home of Witte by order of the new Minister of Interior, who took office yesterday

Early in the day, an officer, accompanied by a num police, took possession of the premises, notwithstanding Witte's protests. They made a complete examination of all the former Minister's private papers and justified their action on the ground that they were acting under orders from Minister Bulygrine. A mass of private documents

If any circumstance could give greater significance to this adminitrative insult to the strongest personality in the politics of the empire it is the fact that when Von Plehve was assassinated he was carrying to Peterhof an order, ready for the Emperor's signature, authorizing just such a search of Witte's papers as was executed today.

Today's action is taken as an indication that Mirsky's liberal policy ased with his resignation and that the new administration of the Interior Department begins just where Von Plehve's left off.

vote for the House bill last April, and further, that it was put through the House in the form that it did go through because the House managers declared that no other bill could by any circumstances get through the Senate. So the bill did go through the House with Republican votes last April on that understanding, and now along comes the Senate and accepts Senator Bard's amendment, thus making the claims heretofore set up by the House managers concerning the sort of bill that the Senate would accept appear somewhat foolish.

Mr. Needham said that he did not régard the Statehood Bill as a party measure, and while he would go as far as he could toward maintaining party harmony, he distinctly declared that he would vote upon this measure according to his conscience, without reserved to party.

Other Republicans who spoke after Mr. Needham took his view of the matter, and when the vote came to a resolution binding the Republicans to stand by the House bill joining New Mexico and Arizona, joining New Mexico and Arizona, thirty-three of them voted no. It had been expected by Mr. Needham that maybe twenty-two or twenty-three Republicans would stand out against the resolution, and he was agreeably surprised to find that a much larger number refused to vote for a measure

that would wipe out Arizona.

All five Republican members of the House from California voted right on this question. It appears that the Statehood Bill is dead, and that Arizona is saved, for the time being at

There will be another fight next year, but the people of all sections are becoming so well educated on the question and so much popular interest is being shown in it that the right of Arizona to remain as she is until she is ready for Statehood is pretty liable to be taken care of and become more secure as time goes by.

You stick to me, and I will make you happy. I me and I will make you happy. I will do everything for you I possibly can. Your sister told me that you were a good business woman, and when filings are straightened out I will open a hotel and we will work together, band in hand. It would be a pleasure to me to be a father to your ten children. I want a wife who has had a bad husband, as she will appreciate me when she gets me. My wife is dead. The dead belong to the dead, and the living to the living. If Marie had not insulted you, I would have mourned six weeks for her, but under the circumstances we must marry right away. You stick by me, and I will send for your children in Germany and we will all live together." Told him that I was surprised that he wanted to be a father to my children. STOCKTON. Feb. 16.—[Exclusive Dispatch.] While workmen were engaged in excavating for the foundation of Louis Wetmore's residence, on East Arcadia street today a box of bones of a human being was unearthed. The men's picks and shovels struck wood, and an investigation brought to light a short box. The bones of the legs and arms had been sawed to a length which would allow of their being placed in the crude coffin, if such it could be called. The wood encasing was of redwood, and all indications point to it having been in the ground many years. It is gengrally believed that the man was murdered and buried at the spot where the bones were found.

NEW YORK, Feb. 10.—War continues in this city against persons who expectorate on sidewalks and in other interdicted places. Policemen to the number of fifty-five are patrolling Broadway, the elevated platforms, subway stations and other busy places on the lookout for offenders.

An ultimatum has been issued by the Board of Health that the crusade is to be carried in every direction. Members of the squad of special police dong duty in outlaying districts have been called to the heart of the city, while the police department has been asked to assist in the work by instructing regular officers on post duty to make arrests where they observe violations of the sanitary code and no special officer is at hand. Six arrests were made in a short period at the Brooklyn bridge entrance.

FUND TO RETARD LEGISLATION?

(BY THE ASSOCIATED PRESS-P.M.)

SAN FRANCISCO, Feb. 16.—The grand jury met today for the purpose of making an investigation in the alleged bribery fund said to have been raised in San Francisco for the purpose of retarding legislation which would be adverse to the interests of certain of the building and ioan societies. Many witnesses were called, chiefly officials of the companies supposed to have been concerned in raising the fund, but according to what the witnesses said before and after they had been questioned by the grand jury, no evidence was given of specific cases of bribery.

The investigation will be continued next week. mt pupil shall, in the discretion is high school board of the high district where he attends, be red to pay a tuition fee to such equal to the difference between out per pupil for maintenance of high school and the amount per received during that school year ch school from the State. ROME, Feb. 10.—[By Atlantic Cable.] David Lubin of Sacramento, Cal., who has been staying here for some months perfecting plans for the establishment of an international chamber of agriculture, speaking today to the correspondent of the Associated Press, said:
"I do not wish to be interviewed, as anything coming from a single person anything coming from a single person."

the Department of Agriculture, Lubin answered:

"No, because the thousands of documents and facts from throughout the world are too numerous to be mastered by a minister of agriculture, he having no means at his control to establish the authenticity of the facts, his jurisdiction being bounded by his own nation and his powers being limited and prescribed by law. He also has no power to influence other nations, which act and react upon his own nation; for instance, in America the Department of Agriculture is unable to abolish the evil tendencies of trusts, combines and mergers which made American agriculturists lose \$700,000,000 last year. But an international chamber could do more than this."

The whole press comments enthusiastically upon the project of King Victor Emmanuel to establish an international chamber of agriculture. The Capitale says: "We cannot refrain from manifesting our pride as Italians in a fact which will make the name of King Victor Emmanuel applauded from the Italian frontier to the country of George Washington."

EXTRAORDINARY SCENE. LODZ, Feb. 10.-[Exclusive Dispatch.] A most dramatic scene, one that barely missed ending in a tragedy of blood, took place at Baron Heintzel's big mill today, when women threw themselves in front of the guns of the troops, and, baring their bosoms, of-fered themselves as a sacrifice for their striking husbands, brothers and sweethearts. It was a triumph for Tolstol's doctrine of non-resistance. Heintzel's men have been out sinte the great strike that has swept Russia began. The officer refused to look at the women and sternly ordered his men to prepare to fire, when Baron Heintzel, who, from within the mill, witnessed the extraordinary scene, could stand it no longer. He rushed out and begged the troops not to shoot. He paid four rubles to each man and the crowd dispersed. bearts. It was a triumph for Tols

balcony.

"We praise thee, O God,
For the Son of thy love,"
they sang. By the time they reached the
second line a few others had caught
the tune, and then others on the main
floor; then the gallery steaithily entered, and as it was reaching the full
power of the audience, musical director
Charles F. Allen stepped from behind
the scenes find began to hold the great
choir in steady time. As the chorus
was reached, the pianist had glided to

callsts, and the familiar chorus swelled onward to its full power of "Hallelujah, thine the glory, Hallelujah, amen," svery man and woman in the great audience having taken up the melody. A bester start for a devout song-service could not be imagined, and it was a happy beginning for a meeting mat was to be devoted to an address on "The Lost Chord," by Rev. J. Wilbur Chapman.

Chapman. Before Dr. Chapman began tils address Fred Butler sang a delightful bass solo. The evangelist took his text from Proverbs xxix, 18: "Where there-

from Proverbs xxix, is: "Where there is no vision the people perish."

"The merchant must have a vision or he will make poor success of it; the lawyer must have a vision or he will be without a message and without power.

"If you are a business man without he vision your horizon will be the four wails of your store; if you are a mother without a vision your horizon will be the comforts of home."

Dr. Chapman was applauded when he affirmed his faith in the Word of God in its entirety. One class of critics of the scriptures he described as follows:

"The men who go at it with a kind of gies; they come to a verse that your mother and mine used to like and they cut it out with a kind of gies, they come to a verse that your mother and mine used to like and they company is very small."

### BIEDERWOLF WINS MANY.

Impressive Dr. W. E. Biederwolf not only held the close attention of a crowded house has night at University Church, but he reaped a great harvest of popile willing to try the effect of the gospel upon their everyday life.

He spoke of the Joy of the Christian life, and of the worrying over worldly disappointments by people outside the church.

The man who doesn't know Jesus Christ doesn't know what real, genuine happiness is.

"The devil has no happy old people, anyhow, and he "wouldn't have any happy young people if they knew what God has in store for them," said Dr. Biederwolf, and as he uttered the first part of the sentence cries of "No, no," came from old people all over the house.

sity of a clear conscience if one would have an easy death.

"I can't bring myself to believe in a deathbed repentance," he said. "Do you know that statistics show that of all such who get well, 39 per cent. afterwards show that they did not take the step because they were sorry for their sins."

step because they were sorry for their sina."

Dr. Biederwolf gave touching experiences from his life as a chapiain in the army during the Spanish War. Great numbers of people stood up or indicated by the uplifted hand their delermination to become Christians and when the meeting was divided, the men all going to the lecture room with Dr. Biederwolf, a number of young men there signified their intention of taking the gospel for their guide.

It is plain that Dr. Biederwolf has greatly endeared himself to the people who attend at University Church, and they hang on his every word. He has such a direct, friendly way about him that he seems like an old acquaintance rather than a stranger.

The singing of the chorus and of Harry Maxwell and Rev. Mr. Todd was enjoyable and impressive. A cornet solo by Rev. W. H. Bell was an innovation.

For fifteen years I have gone up and down this country and in almost every city where I have labored the pastors have made a similar request of the merchants, and this is the first time I have ever known it to be refused. ### HOLLYWOOD.

HOLLYWOOD, Feb. 10.-Postmaster HOLLYWOOD, Feb. 16.—Postmaster P. J. Beveridge returned from Washington, D. C., Wednesday, and in an interview today stated that the government had taken a ten-year lease for a postoffice in a brick building 20x00 feet, which will be erected immediately just east of the City Hall site, on Cabuenga avenue. The rent site, on Cahuenga avenue. The rente will be it per year. The rooms in the new building on the corner of Prospect and Cahuenga were too small to warrant a ten-year lease, hence the proposition to erect a building to be used exclusively for postoffice purposen. This office is now one of the third class and is growing rapidly. It will not be long before there will be free delivery in all parts of the city. Mr. Beveridge says the site was selected as a business proposition and not through political influence. Mr. Friend, the new postmaster, will probably take the office about March 1.

### TO FEED THE POOR ON THE THROWAWAY.

Pinal arrangements were made yesterday at the newly-established presented as the poor, nos. 2820 and 2824 South Main street, for the care of the aged poor who have already asked for admission to this asylum, whose unique feature is the use of "crumbs from the rich snan's table."

The code of these Little Sisters have been included in the charge of Mother Dominick.

The order of Little Sisters of the Poor is now in operation in many of the countries of Europe, and it has several houses in America. One was established in San Francisco several

several houses in America. One was established in San Francisco several years ago.

Old age is the first requirement for admission as a member of the house. Inmates must be over 60 years of age, absolutely penniless and with no relatives on whom they can depend. A certificate of good character is required, and all cases are investigated. Both Catholics and Protestants are admitted to the home. There are two departments, one for the men, and the other for the women.

Two neat two-story houses have been taken on South Main street; and these the sisters have fitted up plainly. They depend entirely on the contributions of the charitable, and do not accumulate funds for their maintainance. A cardinal principal is their dependence upon Providence to provide for their needs from day to day; and it is said their supply has never failed.

The fittings of the Los Angeles institution have been donated by generous people here; and the Little Sisters have made arrangements with several of the leading hotels and restaurants to receive their broken food. This is to be the main basis of their supply.

This is to be the main basis of their supply.

The Little Sisters of the Poor are obliged to serve all the old people first, and they then take what is left for their own sustenance. With a truly self-sacrificing spirit they devote themselves to a life of mendacity, not in their own behalf, but in that of the unfortunate creatures to whom their lives are consecrated.

In its organized handling of the broken foods from the hotels and restaurants of the city, the newcomers have the means of providing support for charity of wide extent, and they thus make use of much good food that otherwise would go to waste. The Little Sisters so far have met with a ready response to their appeals.

The company's practice is to charge off 2 per cent, per month for depreciation on the plant and for actual depreciation in market value of stock on tiand, as also for loss on bond sales, which three items for 1904 aggregate \$112,574,69. U. S. Grant Lee, colored, who says U. S. Grant Lee, colored, who says he has served ten years in the United States Army, caused almost as much excitement on San Julian street between Eighth and Ninth last night as if a troop of cavalry had raided that block. Lee was drunk and "broke." He knew that his wife had \$700 and he wanted some of it, but she refused to accomodate him. Then he threatened to kill her and in order to preclude the possibility of failure, he collected a formidable array of arms consisting of four razors, two revolvers, a shotgun and an infantry officer's sword. saug sum of \$1,515,073.30 is the total of cash dividends—the amount by far, ever yet paid ty all corporation in this State—the up to date by the Union Oil say of California, according to amount a preport of President Lyman and tissued and mailed to stock-resterday. The next largest refused to accomodate him. Then he threatened to hamal report of President Lyman and tissued and mailed to stock-resterday. The next largest refused to accomodate him. Then he threatened to kill her and in order to preclude the possibility of failure, he collected a formidable array of arms consisting of four razors, two revolvers, a shotgun and an Infantry officer's sword.

The women ran out of the house, but one of them braver than the rest returned and secured all of his weapons except the sword and with this Lee threatened to run his wife through. He found a portion of her money and secreted \$155 in a belt around his body.

Mrs. Lee ran all the way to the Police Station and told the officers about it. Patroliman Pauts accompanied her to her home No. \$14 San Julian street and when he opened the door ne was met by Lee with the sword upraised. The sight of the policeman's revolver caused him to drop the weapon and submit to arrest.

### ONLY ONE SUNNYSIDE PARK

It is the only tract of one-half and quarter acre lots around Los Angeles that is improved with cement walks and curbs. It is free from adobe and alkali, of which the adjoining luxuriant alfalfa field and walnut trees bear witness.

### Sunnyside Park Improvements

Are all completed; the streets are oiled and lined with palms and ornamental trees. The tract is reached by two car lines, the Redondo (Gardena branch) and the San Pedro car lines. Pure water is NOW piped from the tract's own pumping plant to each lot in greater quantities than can ever be used.

Notice of Stockholders' Meet-

tions, the latest is a good one. When the veteran horseman at the last matine's casually dropped the hint in Henry Berry's hearing that before the hoofs clinked sgain he would have Briney K.'s measure in his stable, the "gang" sat up and took careful notice.

A few days ago Henderson executed a sneak into the woods and yesterday returned with Oilie, 2:11, the fastest trotter in the northern part of the State. Oilie will start in the free-forall on Washington's birthday, the date set for the next matinée, and that race promises to be about the hottest thing the Driving Club has ever seen in consequence. Byron Erkenbrecher's Rita H., Berry's Briney K. are all to go up against Oilie.

"Pop" Henderson's latest acquisition

H. Berry's Briney K. are all to go up against Oille.

"Pop" Henderson's latest acquisition is the same Oille that took Briney's measure with such dismal frequency all through the northern circuit last year. He then took a mark of 2:11.

Knowing that he has no cinch on the race other than that of perhaps having the best horse, Henderson has decided to take no chances, and has engaged Joe Desmond to drive.

The Driving Club has recently partitioned off a large number of seats in the grand stand for the use of members—about 300 in all.

Entries to the next matinee close Friday, February 17, with Secretary Redpath in the Times building.

270 LOTS. ON THE LONG BEACH LINE AT SEAL GARDENS STATION-About 12 Minutes' Ride.

This beautiful property, level as a floor, lies directly opposite our latest success, "Edgewood Park," which we have practically sold out during the past 30 days.

This is the last bit of choice property in this locality that can ever be offered to the public on any conditions and terms approaching ours.

At our prices these lots will be sold at little more than actual acreage value.

DON'T ALLOW THIS LAST OPPORTUNITY to pass you by; whether for a home or investment in this veritable PARADISE.

## YOU CAN'T GO WRONG

Lots 120 feet deep, \$120 up. Lots 150 to 160 feet deep, \$150 up. Streets 40 to 80 feet wide and graded; artesian water piped to every lot; all lots to an alley; moderate restrictions.
You don't have to wait for neighbors at NADEAU TRACT—more than 50 homes already built on the tract opposite.

#### SYSTEM IS BAD.

Numbers of Automobiles are Not Cor-rectly Registered—Man Injured by Unknown Chauffeur.

nandez was riding a wheel when he was struck. He sustained painful cutz and bruises, but when taken to the Receiving Hospital it was found that his injuries are not serious.

After knocking Hernandez down, the chauffeur kept on going. The police learned the number of the machine, and a search for the owner was made, but when the list was referred to W. P. Gouty of No. 118 East Third street was set down as the owner. Goaty is a busz-wagon fancier, and among other numbers he formerly possessed 233, but months ago he sold out a part of his business, and the number went to a chug-chug outfit on Hill street. Then, later, No. 233 was handed out to another man.

The police are trying to find out exactly how many 237s are in town, and who drove the car that knocked Hernandez down.

of a frue faith, and He was trying to establish it. lending it on from his faith in Christ's mere power to heal. The seeming rebuke impressed him that Jesus was not reluctant to heal his son, that He felt an interest in the living rather as well as in the dying son, and that that He had other gifts to bestow besides the merely physical. And the spirit of Jesus shining through Lis words and manner completed and confirmed that impression. Jesus was really more anxious to save the father than to rescue the boy from his disease, and the father saw that he had a friend. He and Christ were coming nearer to each other. His urgept request was repeated and Christ's second answer brought him still nearer to a right faith.

### DEATH LETS CURTAIN DROP IN VAUDEVILLE.

(BY DIRECT WIRE TO THE TIMES.)

REDLANDS. Feb. 10.—[Exclusive Dispatch.] The hand of Death shifted the scene in the closing act of the local lodge of Elks' vaudeville performance tonight in the Wyatt Operahouse.

While an audience of nearly 2000 happy people waited with expectancy and jest for an act, interrupted through fallure of one of the actors to respond to her cue, to be resumed, Mrs. James P. McEiroy, the tardy performer, was dying in one of the stage dressing-rooms.

Mr. and Mrs. McEiroy came out from Los Angeles to assist the Elks with their show. She had just appeared in a vocal solo, "The Bridge of Signs" which she sang with good effect and without any apparent show of infirmity, and retired to a dressing-room to make a change in her costume, while her husband occupied the stage.

burro and its baby, a rooster which crowed at proper intervals, and Mary's little lamb—all the real thing. The spectators outnumbered those taking pari, but only those in costume were allowed to dance. The ball opened with a Virginia reel and old-fashioned quadrilles followed. Old and young participated, and the fun was like pandemonium let loose. E. A. Ford forsot his dignity and became as a little child; J. H. Holmes made a chubby mamma's darling in knickerbockers and blouse; Sis Hopkins (Miss Daly) won the hearts of all: Mrs. Vilas was a saucy Nancy Simpkins; Mrs. Grattan was a backwoods belle, while Mrs. Davis portrayed the country girl with city ways. Mr. and Mrs. J. R. Stubbs came as a city girl and dude to show the country folk how to act, and Mrs. Campion was an old country apple vender who made the hit of the evening. Besides these were Messrs. West, Carney, Day, Brooks, George Green and Dr. West, who, in nondescript costumes as haymakers and herdsmen, made things merry, for many a Phyllis and danced with an abandon seldom seen. Mrs. L. S. Orcutt made a captivating "Saily in Our Alley" in white muslin and curis; Mrs. Chatell and Mrs. Tichenor were grotesque girls of the olden time; then there was a whole bunch of naughty girls impersonated by Misses Scoville, Green; Shull, French, Holmes, Wooison, Godfrey, Allan, and a group of country gawks, led by Messrs, Lindsay, Groenendyke, Marvel, Pisher and others. Misses Forbes and Allen, Mr. and Mrs. Reed, Mr. Latta and Mrs. and Mrs. Shevlin contributed to the evening's fun, and a few of the young society people of Pasadena we

James Doyle, the Maryland Hotel SCHOOL LUNCH THEEF.

A hobo discovered stealing the lunches of school children gave the officers a lively run this morning before he was finally landed. The jamitor, who is a man six feet four inches in his stocking feet, and correspondingly broad, discovered the miscreant helping himself freely to the lunches left on the benches near the school-house, and he forthwith escorted his prisoner to the office of Constable Van-Vilet. At the door the hobe balked and made a break for liberty, with the constable, his deputy and the big janitor in hot pursuit. The deputy when he became winded fired three shots from his revolver in the air as a peremptory reminder to the fleeing man to halt, but this appeared to have the opposite effect. He will be provided with free lunches for thirty days at the expense of the county.

ELECTROLYSIS ATTACKS PIPES.
Electrolysis vigorously is attacking the water and gas pipes that were a only a few years ago laid through the sand. The heavy electric railway line currents and those of the high voltage light and power circuits in seeking a ground find the water and gas mains the easiest and most direct route and as a result the pipes fre rapidly disintegrating under the potency of the current. A few days ago there was a break in the water main under the recently constructed as phalt pavement on Pier avenue and when the expensive paving was cut and the break located the heavy iron pipe was found to be completely honeycombed. The plumbers pronounced it a genuine case of electrolysis. Repairs to mains under these conditions are expensive,

SAN PEDRO, Feb. 10.—A new departure in the coastwise transportation of lumber has been adopted by C. H. Hooper & Co., of San Francisco, owners of the San Pedro Lumber Company at this port. The company's large four-masted schooner Argus, Capt. Rudbach, will be fitted out with gasoline engines and will be the first, large windjammer to be equipped with motor power in addition to her sail area. The Argus is now bound to Portland to load a lumber cargo for San Pedro. The Union Gas Engine Company of San Francisco, which is constructing the engines for the Argus, has received another order, coming from the Albion Lumber Company, for two 125-horsepower engines, which will be placed in one of their vessels.

J. J. Session of San Prancisco, has decided to build a large vessel at some Northern California shipyard, equipped with gasoline power, for the Skagway-Nome trade. The vessel will be fitted out for the carrying of passengers. Capt. Munce of the power launch Rose, which arrived last night from San Nicolas Island with a cargo of lobsters, reports the accidental death by drowning of Johan Olafsen, a fisherman in his employ, Tuesday morning. Olafsen and Chris Jensen had a camp on San Nicolas and were looking after the interests of Munce. During a heavy sea one of the lobster traps broke loose and started to float away. When the swell drove it in 100 feet from shore, Olafsen punged into the sea and swam out to the trap. Suddenly a huge breaker swept over the man, and the sank and did not again rise. Capt. Munce with the Rose spent several hours looking for the body, but without avail. It is thought sharks may have selzed the body and carried it away. Olafsen, it is stated, had about \$250 in gold on his person at the time of his detah. Nothing is known here regarding his antecedents.

CREW QUITS.

The crew of the large passenger and freight steamer Roanoke has quit the vessel on account of a grievance against the third mate. The Roanoke was on her way from Portland to San Pedro and Wednesday arrived at Marshfield, where the trouble occurred. It is stated that the Roanoke will have trouble procuring a crew at that port as sailors are scarce there. She was recently purchased at Seattle to be operated between Portland, Marshfield, Eureka. San Francisco and San Pedro, and has made one trip to this port. The Roanoke is managed by Charles P. Doe of San Francisco.

It is promised that another handsome and costly hotel will be added to the number of such structures aircady in operation or in course of construction in Los Angeles.

The new caravansary is to be located at the southwest corper of Hill and Court streets and is to cost between \$150,000 and \$200,000.

Drawings for the building are being prepared by Architect John C. Austin for Messrs. Porter and Seemans, owners of the lot upon which the hotel is to stand, who are financing the enterprise. It is expected that work upon the building will begin before the end of March.

As planned, the building is to be seven stories in height, with steel frame and of brick and stone construction. The latest models of hotel construction have been consulted by the architect and the contemplated building combines their best features.

The ornate building is to stand on a commanding eminence on the hill just west of Broadway. In its exterior design, the hotel will be one of the most beautiful in this city of handsome structures of its kind. Perched at top of the hill and looking down upon the business center, it will make an attractive and valuable addition to the architectural beauties and commercial enterprises of Los Angeles.

Charles Steele, for years a familiar figure on the streets of Los Angeles, a lifelong gambler and well known to the sporting fraternity throughout the Southwest, died Thursday night at the County Hospital of crysipelas after an liness of several weeks duration, al-though he had been an inmate of the trospital only a few days. He was a

largest collection of elks' teeth in the world, and many of these valuable pieces of lvory were carried around to mp place to place. A roll containing, 462 of the handsome specimens, valuable in the lot. All were stolen. The burglar secured two diamond pins, large unmounted pearl, Swiss watch, box of Mexican filagree, a solid gold picture frame, and 393.

Pels estimates his loss at fully \$6000. He says he will pay a reward of \$500 aone for the Eik teeth.

A significant fact in connection with the burgary is the disappearance of a beliboy, who left the hotel Thursday night. He has not been seen nor heard from since. The police think the boy was implicated in the robbery, but Pelz is inclined to believe he was robbed by a regularly-organized gang of hotel thieves.

INJURED WHOLE FAMILY.

Runsway on East Seventh Street in Which Three Persons Narrowly Escaped Death.

A horse attached to a light buggy, driven by C. B. Bryant of No. 1838 East First street, who was accompanied by his wife and three-year-old child, became frightened at a passing car at Seventh street and Central avenue yesterday afternoon and started to run. When the wheels of the buggy struck the Southern Pacific tracks at Seventh and Alameda streets the vehicle was overturned and its occupants thrown with great violence to the paved street.

Bryant struck on his face and was rendered unconscious. He sustained a laceration of the note and a scalp wound.

Mrs. Bryant with her baby in her street fell almost under the buggy.

Euclid Avenue.

City Attorney Mathews has been called upon to decide a particularly knotty question in street improvement, growing out of the recent grading of Euclid avenue. At the time the contract for the improvement was let, a franchise for a street railway had been sold ever the avenue. In the franchise is the provision that the railway company must keep its right of way in the same condition as the remainder of the street. The contractor graveled the street, leaving a strip in the center for the railway company laid its tracks, but took no steps to surface its right of way. The street work was accepted by the former Street Superintendent and now the property owners are declining to pay their assessment bonds giving as their excuse that the street is but half graded. THE O'SHEA DIVORCE. Evelyn THE O'SHEA DIVORCE. Evelyn K. O'Shea was granted a divoree from Daniel O'Shea by Judge York yesterday, on the ground of cruelty. The parties were married in June, 1900, and shortly afterward the husband began to abuse and neglect his wife. One day, in his anger, he tore up the marriage certificate, and that was the culmination of his offenses in the eyes of the wife. Repeatedly O'Shea got drunk, and from the testimony it appeared that he is now doing twenty-five days for drunkenness in the City Jail.

DAMAGE ASSESSED. In the suit of Frank Bain against the street railway company to recover \$50,000 for the line running to Ascot Park, the jury in Judge York's court yesterday returned a verdict in favor of the plaintiff for \$4650.

SKIPPED OUT. Marget Morgan obtained a divorce from Albert Morgan yesterday before Judge Conrey, on the ground of cruelty and non-support. The parties were married in March. 1892, and in 1899 the husband left after cruelty ill-using his wife.

LOTTS SEPARATED. Reuben R. Lott was granted a divorce from Nettle Lott by Judge Allen yesterday, on the ground of desertion. The parties are colored people who married in Texas, in 1832. The wife thought farm work too heavy, and left her husband to go into service at Austin. The next the husband heard of her was that she had come to Los Angeles. It appeared to be a pretty good place to come to, and he also set his face toward the setting sun. He has been working as a coachman, but avers that he has not seen or had anything to do with his wife, who is a cook at Pasadena.

"Til put up bonds in the sum of si50,000, if necessary, but I want that diamond ring," pleaded John B. Solomon in Police Court yesterday.

"I want the ring, it's mine; at least until it is redeemed. Diamonds are only safe in my safe. Gimme the ring," continued Solomon excitedly.

"The ring has been offered as evidence in this court and here it must stay," announced Justice Chambers, and Solomon was temporarily squeiched.

Solomon's excitement was caused during the trial of Emil Formus who

HAD FIENDISH TEMPER.

PAPA SCHAUB CUT OFFSPRING,
Mamma Schaub was granted a divorce from Arnold Schaub by Judge Conrey yesterday, on the ground of cruelty.

The parties were married in 1878 and have raised a family on a five acreplace at The Palms. Hard working folk, they got along all right save when the husband was disturbed or put out by anything; and then he raged like one possessed. As the years advanced this irritability of temper increased, and once he slashed his eldest boy across the face with a butcher knife in his rage. The cicatrice was shown to the court yesterday, and indicated a not very serious wound to the left of the chin.

William Burns and J. Harrington, the companious of John Downey in the recent jobs of pocket-ploking, were examined before Justice Austin yeaterday and both were held to answer to the Superior Court on charge of robbery. H. Galleron, the man from San Bernardino who was robbed on a Santa Fé train between Los Angeles and Pasadena, again told his story of the robbery and the pair were readily cinched so far as the police court was concerned.

Handcuffed together, Downey, Burns and Harrington were sent to the County Jail last night.

Another Hop Joint.

Seven debauched men and women were dragged from a disreputable lodging-house at No. 315 New High street at 4:20 o'clock yesterday morning by patrolimen. The place is said to have been the worst yet raided by the police. Deprayed creatures were lying around the rooms in the utmost state of abandon when the officers attempted to force an entrance, but when the inner sanctum was finally reached all evidence of a contraband opium joint was missing. A careful search by the officers was made and "yen shee" bowls and necessary "fixins" were found hidden. In some instances the bricks of the chimney-place had been removed and bowls secreted behind them.

All the paraphernalia and "accessories" were confiscated. At the-seation the fiends arrested gave their names as Helen Henderson, Thelma Telpento, Fred Tussey. Charles Slaughter, J. C. Randal, Paul Greenwood and F. Rose.

The Henderson and Telpento women were tried in Police Court yesterday and were fined 320 each. The others are held on suspicion.

This establishment will have three principal aims:

First: To give the best service possible. By
"service" we mean that flowers will be packed properly
and delivered promptly, and every courtesy possible rendered to our customers.

Second: To supply the best grade of flowers that
can be grown. We might say here that we are growers,
and that we operate the largest greenhouse establishment
west of Chicago, and that we have the finest facilities for
maintaining a consistent standard.

(BY THE ASSOCIATED PRESS—AM)

CHICAGO, Feb. 10.—To help supply the demand for prime coach horses, assistant Secretary of Agriculture Hays has purchased in this city for the horse-breeding experiment station at Greeley, Colo., the famous stallion Thunder Cloud, eleven mares and a number of fine range horses. The Greeley institution is under the direction of the Agricultural Department at Washington, and the government appropriated 150,000 for the purpose of experimenting in breeding an ideal type of American coach horse.

This new more on the part of the government is said to be likely to lead to requests from other live stock interests to branch out further and establish farms for breeding other types of horses, as well as for breeding different types of cattle, hogs and sheep. With the rapid development of the country in wealth, the demand for prime coach horses to export.

A LIVE ONE.

Fustian became tired of running last three times during the past ten days and so he let hoise yesterday at Ascot and ran first very easily. Judging from the adjacent past these four races would lead one to believe that Pustian is very much of a cheat.

On January 30 with 110 pounds up he ran last all the way in five horse race at six and one half furlongs; February 1 105 pounds he was last all the way in a four horse race at six furlongs run in 1:13%; February 4 he finished last in a six horse mile race run in 1:43%. Yesterday he jumped into the lead at the start of the mile race, ran the quater in 0:25, the half-mile in 0:49%, the three-quarters in 1:14% and the mile in 1:41, giving a good lilipstration of a form reversal. It has always been known that Fustian is a good horse, but it was somewhat of a surprise to the form students to see him come to life so suddenly.

It was no surprise to the wise ones however for although the storekeepers opened Gorgalete as an 8 to 5 favorite on her previous race, large consignments of coin poured in on Pustian and his price was quickly cut to 8 to 5. Gorgalete receding to 2 to 1. When the barrier flew up Fustian shot into the lead and stayed there to the finish, just lasting long enough to beat the good thing Panique, a new horse that made his first appearance and was heavily played across the board. Ralph Young had considerable attention from the sports but with his well known jil luck he was heavily supported to run third and did so.

The shock of the day to many sports was the victory of Rubania at 10 to 1 in the third race but the time she made for the Slauson course shows that she is a lot better than many people thought she was. In the dirst race last Monday she ran six furlongs in 1:15% over a slow track and won at 10 to 1, leading all the way from two to five lengths. At that time she ran the quarter in 0:24 and the half in 0:49. Yesterday she was in against a better field and ran exactly the same way, opening a gap at the start and increasing it to four lengths at

coming Patsy Brown, who has been in the background for some time. The favorite Namtor ran fourth all the way and the well played Akela went to the post in bad shape and ran last, just beating out Ulioa for the booby prise at the end. The long shot Aminte set a fearful pace for six furlongs, leading by five lengths at the quarter, four at the half and two at the last turn; but Helgesen's poorly judged ride pumped all the speed out of the mare and she had nothing left to finish on. The distance was too far and she will win at three quarters of a mile against ordinary horses.

The first race for two-year-olds was won easily by Wee Girl, who was off flying in front to a bad start and was never headed. The favorite Silver Wedding was off in sixth place back in the ruck and of course could never get up. Avonella was left at the post and Sizx and Saindora were but little better off.

Only two favorites won in the six races but the winners figured to win and if they were in at a faise price that is a racing misfortune for those sports who generally play the favorite in every race because he is a favorite and without considering form.

Jockey Fuller was fined 325 for crowding the horse George Berry in the second race, and Walsh \$25 for crowding in the fifth race with Golden Light.

SAN FRANCISCO, Feb. 10.—The second race at Cukland resulted in a big upset when Calculate, a despised outsider, at the odds of 40 to 1, came through on the rail and downed the red-hot favorite, Alone, by a neck. Minder got Alone away flying, and looked a winner at the saddling paddock, but the bay filly faitered in the last few strides. Adirondack and Dr. Sherman, each at 10 to 1, were also among the winners. The weather weather Sherman, each at 10 to 1, were also among the winners. The weather was clear, and track good. Summary:
Six furiongs: The Voit, 107 (Travers.), 4 to 1, won; Dundreary, 108 (Michaels.) 4 to 1, second: Maxetta, 108 (Bell.) 30 to 1, third; time, 1:15½. Charmel, Chablis, Gyros, Sunny Shore, Pachuca. Duet, Tar Baby, Virginia Boy, Silicate and Mt. Diablo also ran. Five and a half furiongs: Calculate, 102 (Fountain.) 40 to 1, won; Alone, 105 (Minder.) 8 to 5, second: Harvester II, 107 (W. In all this great United States there is but a very limited erea which presents ideal conditions for human ciai point of view, the practice here criticised is altogether wrong. The horses are worn out and rendered useless before their time, and much of the driver's time, which must be paid for, is wasted.

Won't our humane associations see that they can do in regard to this matter?

I NCLE JOE AND OUR BIG TREES

Collier's Weekly for February 4 contains a savage attack upon "Uncle Joe" Cannon, Speaker of the House of Representatives, because of his opposition to the bill to save the California big trees by government purchase. The writer in Collier's makes a number of remarks about Uncle Joe that arc really very measly, vicious and uncalled-for. He declares that "Mr. Cannon is more popular than he deserves to be," although admitting that "he has the racy western flavor that is pleasing to Americans;" that "he has the racy western flavor that is pleasing to Americans;" that "he has the racy western flavor that is pleasing to Americans;" that "he has a strong, though narrow, common sense:" and that "he also has a will, and therefore becomes a potentate in a position with the opportunities of the Speakership." Fortunately, "his integrity is not quoestioned"—and for the speakership." Fortunately, "his integrity is not quoestioned"—and for the propertion of the speaker of the House of the presentatives is a man of larger of Representatives is a man of larger of Representatives

The new president also suggested that in order to encourage the manufacturing industry in this section, it might be a good idea to devise a well considered plan, by means of which the chamber would be safeguarded in affording facilities to honest promoters of worthy manufacturing enter-prises, so as to aid them in coming

It is a pleasure to note that George Knight has been selected to speak at the great Lincoln banquet to be held in New York next Monday evening. But we fear that he will not be fully appreciated, under the circumstances. It isn't quite fair to compel him to turn his voice loose in a banquet-room not much bigger than an ordinary country church. If New York really wants to know just what he can do as an orator, let them put him on Brooklyn bridge, and then hike themselves out to Sandy Hook. When George has his audience at that range he always does his best work.

Now the California Legislature proposes that we go back to that ancient and obsolete custom, only that even the twig is to be dispensed with. Kansas is

uncle Joe Cannon: Suffering Jehul I had no idea the attemperature. Omaha is again in the grasp of a bilizard." say the dispatches. "Off again, on again, one again—Flanagan." Well, they had one moderate day, anyhow, and that's more than most towns, east of the Rockies can boast of.

Atlanta, Ga., like Rome, sits on seven hills. But whether she sits on them at the present writing is a matter that cannot exactly be proved. She is cut off by bilizards, and the telegraph wires are all down. O, fair Atlanta of the sun-kissed South!

If the bones of Paul Jones are in Paris, or anywhere etse in the outer world, let them be found at whatever cost and brought home to the soil of America, under the flag that he was the first to fly from any masthead.

"Wherever MacNabb sits there is the head of the table," the old Scotch saying has it, and doubtless none set the force of it better, at the present ime, than those four uneasy Senators in the sweatbox at Sacramento.

New York is now also to have an evangelical revival. It seems that every time Los Angeles makes any kind of a move, whatever, New York immediately gets up an imitation of it.

Perhaps the revivalists are justified in picturing hell as it really is. The present generation has unquestionably fallen into the lidea that it is merely some sort of a pleasant summer resort.

No brighter thing, vivid with life and pulsating with the mere joy of being, has been played by the Symphony Or-hestra.

Los Angeles is distinguished in by things, as leading all cities in United States. It is ahead of all, opt four or five, in the cost of dings erected from month to the It regularly leads all cities percentage of increase of postof-receipts, of hank clearings and of ulation. It is ahead of all cities the per capita number of telected and automobiles and others. Unfortunately, Los Angeles leads in some things that weld rather not see. It is the testify of travelers who have been all the world, that in no piace have witnessed so much unnecessary. It to animals—more especially come up, however, no two sides exist, in the Latin circumstries that you will find cocks, and bullifichts and the cruel.

time is pairry. It is as much our place to preserve them as to preserve Niagara. They stand there, to elevate beholders, and teach them the littleness of man, or they fall before the greed of an owner with about as much spiritual illumination as Mr. Cannon has himself. The House would pass the bill at once if the great and good Cannon would amiably permit. Cannon is hing, their legs trembling, their reductified dilated, while too often the state of man, or they fall before the greed of an owner with about as much spiritual illumination as Mr. Cannon has himself. The House would pass the bill at once if the great and good Cannon would amiably permit. Cannon is hing, their legs trembling, their reductified dilated, while too often the state of the great and good Cannon would amiably permit. Cannon is hing. The Representatives are his slaves. He feeds them committee places and other favors and they regulate the unfortunate brute with a lovel. Such a sight is a disgrace to re civilization. A point where such scene may be witnessed at almost ty hour of the day is at the foot of this position."

This is paling to it is pairly. It is as much our place to preserve them as to preserve Niagara. They stand there, to elevate to preserve them as the theorem as the bidders, and teach them the littleness of man, or they fall before the greed of an owner with about as much spiritual illumination as vue avenue, a street with a heavy a, over which a vast amount of ing material is being hauled to

newspaper item says it is not likely that the automobile will over take the place of horses for hauling trucks in

We have several humane associa-tions in Los Angeles. They are sup-toos occasionally to accomplish some mod purpose. Like the Prohibition-as, however, it is to be feared that hey are too often satisfied with adopt- of his decisions, they will no allow ing resolutions and making out a re-port. If they want to accomplish out protest, Mr. Cannon is not by port. If they want to accomplish something practical, and save a vast amount of animal misery, why can they not, as suggested some time ago by The Times, arrange to furnish, at the foot of steep grades, a pair of helper horses to aid in drawing heavy sagons up the hill? There should be no difficulty in obtaining sufficient quaranteed monthly subscriptions from people whose hearts are pained day after day by seeing these cruel that nobody will believe it. Such a day after day by seeing these cruel that nobody will believe it. Such a sights. And surely, the owners of the statement reflects upon the intelligence and impugns the motives of the gence and impugns the motives of the sems would be willing to subscribe person making it.

The person making it.

The further statement that "Cannon is king—the Representatives are his alaves" is equally malignant and identification and used to haul the other to the

groves as follows:

"On another occasion which has just come up, however, no two sides exist, except intelligence on the one hand and prejudice on the other. Mr. Cannon has an uneducated man's bostility to anything that can be damned with the name of art or culture. He would rather have architecture in Washington controlled by an office boy friend of his than by the ablest architect in America. His latest exploit is to oppose the passage of the bill to save the California big trees. The amount of money required to save these noble monuments of bygone time is paltry. It is as much our place to preserve them as to preserve Niag-

This is piling it on a little too a vigorous protest. It may be well to say, in the first place, however, that we quite agree with the writer that there is really but one side to the question of preserving the big trees. That they ought to be preserved is a proposition so obviously true that it admits of no successful denial. It is ment is the only agency that can prop-erly acquire and maintain these "noble monuments of a bygone time," Mr. Cannon's opposition to the measure designed to effect this object is much to be regretted, and he will doubtless derstand his mistake in this matter

But, while Uncle Joe's friends recise his actions, and to kick at some

as he possesses, are adopted by the House, and may be repealed or an ended by that body whenever a sufficient majority so wills. If the members of the House are slaves to Speaker, they are willing slaves, and have only themselves to blame for the bondage.

Hugh P. Stewart, who has ably filled the position of assistant general passenger agent of the Huntington lines operated by the Pacific Electric and Los Angeles Interurban Railway companies, has resigned to go into the banking business. He is a stockholder in the Mercantile Trust & Banking Company, that has recently opened up a handsome place of business at the corner of Broadway and Mercantile Place. Stewart will be actively connected with the business management. The resignation, announced yesterday, came as a surprise to employés of the Pacific Electric, and to a large circle of railroad friends of the young man. He is a nephew of H. E. Huntington, a staunch companion of his cousin, Howard E. Huntington, general manager of the Los Angeles Railway Company, and has been identified with the Huntington lines for a long time.

"Get-Rich-Quick" Schemes In Need of Muzzling.

Tells 'Annual Meeting of Plans for Future.

A shot at "get-rich-quick" schemes and open gambling, and a caution against juggling real values with the fictifious were the features of the inaugural address of the new president of the Chamber of Commerce, J. O. Koepfil, at the annual meeting of that body yesterday afternoon.

Reports of the various officers indicated constant growth of the organization. The retiring president, H. S. McKee, made a résumé of the work of the year just closed, showing the membership of the chamber now to be 1700, an increase of about 25 per cent, in the year.

year.
Attributing much of the prosperity and advance of Los Angeles to the Chamber of Commerce, Mr. Keepfil said the organization has before it a certain responsibility and must aid in conserving to the community the benefits of present conditions, and help to guard it against the ill effects that would follow a departure from sound conservatism.

would follow a departure from sound conservatism.

"Sudden increase of wealth, such as we have experienced in this community," said Mr. Koepfil, "creates a fertile field for those who prey on the guilibility of the public by an appeal to its capidity. This is sometimes put in the form of open gambling. Sometimes it assumes the guise of a legitimate business enterprise. Experience has well defined the limits beyond which safe financiering cannot go. A promise to investors of returns exceeding these limits suggest what is known today as a 'get-rich-quick' scheme.

PRAISE FOR ALL.

W. D. Stephens, chairman of the Committee on Building and Permanent Exhibits, made a verbal report showing a great increase in exhibits and an application for additional space beyond the capacity of the present quarters. Mr. Stephens complimented Secretary Wiggins on the manner in which he had administered the affairs of his office, commended Assistant Secretary H. B. Gurley especially for his conduct of business in the absence of Mr. Wiggins, and praised the work of Charles L. Wilson, superintendent of exhibits. The thanks of the directors were extended to the retiring president. PRAISE FOR ALL

twelve months.

Efforts are under way, the secretary said, to increase the membership to 200 or 2500. In this connection, he said that properly owners, though receiving great benefit, are not represented in the membership to such an extent as they should be.

Demands for specific information increase daily. To satisfy this demand, in a measure, fifty-seven varieties of pamphlets are carried constantly, of which 35,000 separate copies have been circulated. Of these 150,000 were handled at the St. Louis fair.

AFTER PORTLAND, WHAT?

AFTER PORTLAND, WHAT?

"What shall we do after the close of the Lewis and Clark Exposition?" is the interesting query propounded by Mr. Wiggins.

With the benefits of promotion exemplified at the St. Louis Fair by the fact that Los Angeles county received more awards than many States, with the county holding the reputation as an authority on exhibition work, he asks what is to be done in this line if expositions cease.

As an answer, the suggestion is made that the Chamber of Commerce establish branch expositions in Eastern cities, conducted on the lines of the local exhibit. In this branch of advertising, he says, it is necessary to "keep everisitingly at it."

In its working operation the chamber had on hand at the first of the fiscal year just closed \$916.83, of which \$698.65 was reserve. The receipts for the year were \$19,75.49 and the disbursements \$27,969.43, leaving a balance of \$2176.94. Construction and other expenses ate up the reserve fund.

The report of the Finance and Auditing Committee summarizes the cost of construction of the new building and gives the assets, including real estate, at \$332,013.48, with liabilities of \$255,000.
